WORK EXPERIENCE

Schneider Electric (6m)

Hardware -Intern

Jan 2024 - Apr 2024

- Performed system diagnostics, maintenance and assembling Computer hardware to ensure operational reliability
- Assisted in hardware testing, component installation and circuit verification under engineering supervision

SportsForChange (2m)

Application Developer Intern

Nov 2024 - Jan 2025

- Developed a sports management app to handle data for multiple schools.
- Worked on app features for tracking players, matches, and results easily. ➡

ConnectEk Solutions (1m)

Software Trainee Intern

May 2025 - Jun 2025

- Assisted in building an assignment tracking system to monitor workflow.
- Tested and improved features to make the app work more efficiently. ➡

EDUCATION

Acharya Nagarjuna University

B.Tech Aiml - 8.51

Jun 2024 - Pursuing

Chebrolu Engineering College

Diploma Cse - 8.07

Aug 2021 - Apr 2024

SKILLS

Programming :

- | | |
|--------------|--------|
| • C | C++ |
| • Java(J2EE) | Python |
| • Html | Css |
| • JavaScript | MySql |

Frameworks

- Flutter
- Django
- Aws
- TensorFlow
- Open-Cv
- Git -Version Control

PROJECTS

KissanConnect

May 2025 - Nov 2025

- Kisan Connect is a digital platform that connects farmers directly with consumers, enabling fair pricing, easy crop sales, and transparent transactions without middlemen.
- Many farmers struggle to use mobile applications effectively - this platform includes an Ai-powered voice assistant for hands-free control, from buying to selling crops.

Agri Nutri Track ➡

Mar 2025 - May 2025

- An IoT-based platform that analyzes soil to measure NPK, pH, and toxin levels for accurate food quality assessment.
- Data collected via IoT sensors is seamlessly monitored and managed through a cloud-integrated application.
- Provides QR-based scanning for food batches to check real-time quality ratings (Low–Medium–High).

- Easy-Voice

Sep 2024 - Oct 2024

 - Developed an intuitive app enabling real-time, seamless communication across multiple languages.
 - Works as a real-time voice translator – speaks the translated language instantly as the user talks.
 - Helps travelers and tourists remove language barriers, allowing instant multilingual interaction with anyone.
- HealthLock

Jan 2025 - Feb 2025

 - Built a health application where doctors can quickly access patient records by scanning a QR code, ensuring secure and efficient data retrieval.
 - Enables encrypted, real-time access to medical information to improve hospital workflow and patient safety.
- Landmine-Detection Using Drone-Cam

Jan 2025 - Feb 2025

 - Designed a drone-based system that uses computer vision algorithms to detect landmines in real time in mine-affected zones.
 - Helps operators monitor and avoid hazardous areas safely by identifying landmine locations automatically.
 - Sends GPS coordinates of detected landmines to the base station for safe neutralization.
- AquaCleardrop

Jun 2025 - Jul 2025

 - IoT-powered water quality monitoring system that measures and updates water purity every 30 minutes
 - Utilized a turbidity sensor on an ESP-based board to collect data and upload it to the cloud for real-time analysis.
 - Application displays live and historical trends of water quality through an interactive dashboard.
- Assign-Sync

May 2025 - Jun 2025

 - An Edtech platform that simplifies batch-wise assignment management for institutions.
 - Allows instructors to assign tasks, students to submit work, and admins to monitor overall progress in real time.
 - Features a scalable, cloud-ready architecture designed for multi-institution deployment.

CERTIFICATE

Android App Development	Cloud Computing
Flutter Development Certificate	Django Developer Certificate
Artificial Intelligence	MachineLearning Certificate
CodeDale Hackathon	Sunhacks Hackathon
Hack-Orbital Hackathon	Deviathon Hackaton
Open CV Certificate	Drone Programming Certificate
PostgreSql Certificate	Aws Certified Developer-Assoicate Certificate

ABOUT

- Able to work independently without the need for constant supervision.
- Eager to learn new technologies quickly and contribute to innovative software solutions.
